

AN INNOVATION OF RURAL MINDS

**RAJIV GANDHI UNIVERSITY OF KNOWLEDGE TECHNOLOGIES**  
BASAR, TELANGANA

**"Winning takes talent, to repeat takes character. We have, therefore you are"**

We, the students of Rajiv Gandhi University of Knowledge Technologies proudly affirm to align ourselves and to organize "Antah Pragnya 2k16", a platform to showcase exceptional innovative thoughts at our university on 26th, 27th & 28th of February to exemplify our presence in changing times of technology.

We believe, this provides a tremendous opportunity for the students of several prestigious institutions to participate, compete and interact with each other.

**"Antah Pragnya"**, The intellectual spirit of the rural youth, is the one that manifests the concealed thoughts of young minds. This Technical Fiesta focuses on students' effort towards creating an experience that not only exhilarates, but also triggers their curiosity.

## **About RGUKT**

Established in April 2008, over a vast spread of 272 acres in Basar, the abode of Gnyana Saraswathi, the Goddess of Knowledge. RGUKT stood true to its location graciously, gained instant fame and success.

RGUKT has maintained a great reputation to run with a consecrated mission to cater the underprivileged students with sophisticated education and mould their abilities to take a form by combining experience and ethics, assuring better opportunities for successful life.

Harboring a population of over 6,000 students and 250+ faculty, RGUKT is widely known for its quality of teaching & outstanding caliber of the students. The pre-university and undergraduates are being offered with six major branches in 6-year integrated B.Tech programme & the postgraduate students with Computational Engineering.
